

CREATE at the 2025 NSTA Annual Conference

Wednesday, March 26

Time: 8:15 am - 3:15 pm, Pennsylvania Convention Center - 201 B

Christopher Harris (WestEd), Joseph Krajcik (CREATE for STEM), *PLI-5: Creating Instructionally Supportive Assessment Tasks to Support 3D-Learning*

What approach can science educators use to create assessment tasks that support instructional practice and students' three-dimensional learning? Participants will experience an approach for designing 3-D assessment tasks that will help their students build toward the NGSS performance expectations.

Thursday, March 27

Time: 2:20 - 3:20 pm, Pennsylvania Convention Center - 126 B

Christopher Harris (WestEd), Joseph Krajcik (CREATE for STEM), *Creating and Using Instructionally Supportive Assessments in NGSS Classrooms*

What approach can science educators use to create assessment tasks that support instructional practice and students' three-dimensional learning? Participants will be introduced to a process for designing 3-dimensional tasks for classroom use which will help their students build toward the NGSS performance expectations.
