

Series Dates for Fall 2026-2027

CREATE Community Talks and AI Conversations

Demystifying AI in STEM Education track: on ZOOM, in person and recorded

Community-led conversations exploring AI literacy, pedagogical applications, and the future of AI in scientific work and research. We'll dig into recent research, news, opportunities, and challenges together.

Dates: Tuesday, 9/8/26 (Planning session).

Wednesday, 10/7/26, Dr. Aman Yadav and Dr. Victoria Macann (and grad students)

Tuesday, 11/3/26, Dr. Melanie Cooper and Dr. Rachel Henderson:
Establishing Learning Culture in STEM Classrooms in an era of AI

Wednesday, 12/2/26, Dr. Devin Silvia

Research Mentoring and Discussion Forum:

A friendly, low stakes space for junior researchers to share their work and get feedback from colleagues and peers. Senior faculty, we'd love to have you share your wisdom too. We'll also tackle topics like translating ideas into grant proposals and navigating publication. New this year: graduate students can earn RECR certification credit (in-person attendance required).

Dates: Tuesday, 9/22/26, (Planning session) Meeting notes, etc... available at:

Wednesday, 10/21/26, MSU Writing Center; Aman Yadav and Christina Schwarz

Tuesday, 11/17/26, Danny Caballero and Kevin Haudek

Wednesday, 12/16/26, Aman Yadav and Kevin Haudek (tentative)

All sessions will be held at 12:30pm in the CREATE for STEM seminar space unless otherwise advertised. Light refreshments will be available but please feel free to bring your lunch, water bottle and a colleague or friend!

Please note the day of the week alternates for each session of each track.
